Reveals your Success!

The KLLP™ & The LIFE Languages™ System

Your Key to Success with Character Centered Communication

Life Languages International™, LLC (LLI), provides testing, seminars, and workshops to strengthen communication skills and help employees, employers, organizations, and departments, discover their LIFE Languages™. The LIFE Languages™ System teaches the principal of Character Centered Communication empowering you to communicate efficiently, productively and effectively. LLI is dedicated to “helping you and your business speak the languages of success!”

Many times, what may appear to be management, racial, gender, class, or other diversity issues actually may only be a communication issue. The LIFE Languages System™ and the KLLP™ (Kendall LIFE Languages Profile™) can identify the communication challenges and help build effective teams to achieve the maximum efficiency. The goal of LIFE Languages System™ is to help people (and organizations) reach their full potential through character, communication, and effectiveness.

The most successful way to create a coherent individual and organizational culture is to profile all organizational members from the beginning. By profiling all members at one time, LLI can provide a directory listing all persons alphabetically providing their top three languages and last language with, score, range, and intensity. The directory also includes a summary of the LIFE Languages™ with instructions for effectively applying the insights provided by this analysis.

Through speaking events, workshops and corporate training, LLI has reached over 1000 businesses, corporations, hospitals, churches, schools, colleges, and civic organizations.

Solutions for a Character Centered Company Culture

The KLLP™ and the LIFE Languages System™

CULTURE CONFLICT RESOLUTIONS
